

Bruce M. Klein

Of Counsel

At Russell Friedman & Associates, LLP, Bruce Klein provides our clients with the highest level of consultation honed by more than 40 years of experience. Representing corporations in risk management and legal capacity, as well as carriers and providers in various legal areas involving no fault regulations, Mr. Klein's consultations have been deemed of significant value to those requiring his services. He was formerly counsel to a publicly traded practice management company. He currently focuses on No fault regulations, arbitration, litigation, secondary payor, medical practice management, commercial agreements, and no fault insurance consulting.

In recent years, Mr. Klein has added a concentration on the impact of federal regulations pertaining to secondary payment as it relates to no fault coverage, together with recent developments in federal and New York State affecting billing practices. To that end, he continues to represent clients in seeking clarification from the regulator on issues of concern affecting all our clients.

Over the years, his professional accomplishments have been many. He was engaged in our firm's successful effort in obtaining clarification from the NYS Department of Financial Services Clarification that the standard hospital billing form UB-04 is a bill in no fault, and that emergency room billing cannot be delayed for receipt of Form NF-2 by the carrier. He has also been a RIMS guest speaker RIMS to the Long Island Association and to the Health and Hospital Section's Continuing Legal Education Course on "The Relationship Between No Fault Insurance, Compliance, and Revenue Cycling."
